

VELUX

Energy performance & tax savings all in **one box**

In the box

Skylight: Triple LoE, dual-sealed, argon-gas filled glass. Meets ENERGY STAR® requirements in all climate zones.

Factory-installed solar blind: Solar-powered, double-pleated, blackout blind. Boosts energy performance up to 40 percent.

Intelligent touch remote control: Simple set up for seasonal automation optimizing energy efficiency.

30% Federal Tax Credit

Receive an average of **\$730** on product and installation with federal tax credit eligibility.

Seasonal automation optimizes energy efficiency

Reduces energy dependency and maximizes efficiency by allowing the homeowner to control blind positioning or the system to automatically optimize energy performance based on outside conditions.

Easy programmable remote control for winter and summer modes.

Blinds automatically close at night during winter months to maximize energy efficiency and reduce heating costs.

Blinds automatically close during the daytime in warm summer months to maximize energy efficiency and reduce cooling costs.

Energy performance model is the logical choice for any fixed or manual "Fresh Air" skylight installation.

Fixed

Considering a fixed skylight?

Upgrade to the Energy Performance Model and recover an average of **85% of actual price paid for product after tax credit eligibility***

Energy performance model all in one box: fixed skylight, factory-installed solar blind, and programmable remote control.

Manual "Fresh Air"

Considering a manual "Fresh Air" skylight?

Upgrade to the Energy Performance Model and recover an average of **73% of actual price paid for product after tax credit eligibility***

Energy performance model all in one box: manual "Fresh Air" skylight, factory-installed solar blind, and programmable remote control.

Seasonal automation

Easy programmable remote control for winter and summer modes.

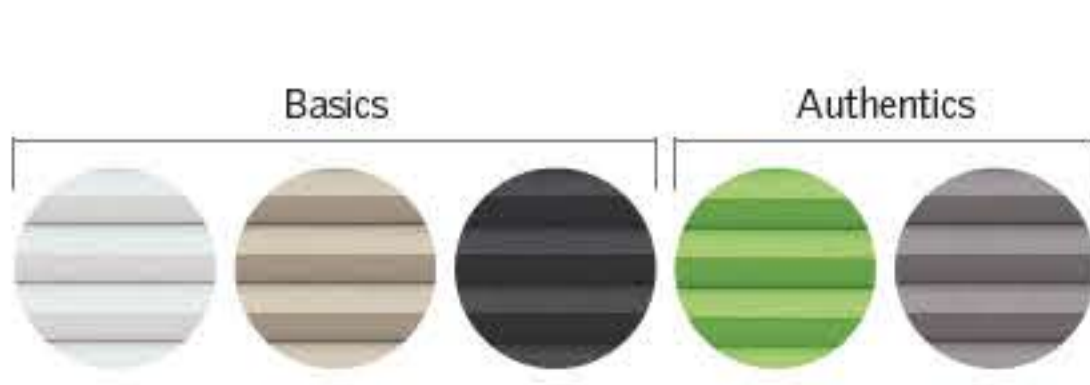

Blinds automatically close at night during winter months to maximize energy efficiency and reduce heating costs.

Blinds automatically close during the daytime in warm summer months to maximize energy efficiency and reduce cooling costs.

Choose from 5, In-stock, room darkening, double pleated, solar-powered blinds.

* For more information, visit veluxusa.com/taxcredits. All calculations are based on the estimated cost of both the product and installation. There estimates were generated assuming a typical installation and use national averages for a new skylight cut-in. Actual installation costs will vary from these estimations based on common variables in roof construction and shaft construction.
